

Every item of mining interest—Progress and development of mines—Strikes and out-pit of ores, from the great mineral districts of Cerrillos, San Pedro, Golden, Dolores and the Sandias, will be published in this paper when the same can possibly be obtained.

The Rustler.

Capitalists, Investors, Claim-owners, and all mining men, will find this paper a profitable and reliable source of information. Care is taken to prevent the appearance of any misleading statements. On this basis the paper has a value to you and merits your subscription.

VOL. IV, NO. 22.

CERRILLOS, NEW MEXICO, FRIDAY OCT. 2, 1891.

\$3 PER YEAR

CERRILLOS LODGE, No. 19.
A. F. & A. M., meets at its hall on the first Saturday evening in each month.
CHAS. F. EASLEY, W. M.

VESPER LODGE, No. 15, K of P.
Meets Tuesday evening of each week, at 7:30.
Z. M. CRUTCHFIELD, C. C.
D. J. JONES, K. of R. S.

Church Directory.
M. E. Church South.—Rev. J. M. Crutchfield, pastor. Preaching every Sabbath, morning and evening. Sabbath school at 9:45 a. m. Prayer meetings Wednesday evenings.

A. T. & S. F. Time Card.
Trains carrying passengers leave Cerrillos as follows:

EAST:	
No. 2, Passenger, 3:10 a m	" 4 " 5:42 a m
" 34 Freight, 9:38 p m	" 36 " 1:06 a m
" 38 " 8:53 a m	
WEST:	
No. 1, Passenger, 1:06 a m	" 3 " 10:33 p m
" 33 Freight, 6:36 a m	" 35 " 1:09 a m
" 37 " 5:06 p m	

In effect Sunday Feb. 1st 1891.
C. E. HONEY, Agent.

Local Rustlings.

"Be sure you're right, then go ahead."

Un gran baile en San Pedro esta noche.

More teams are wanted to haul coal at Cerrillos.

Winter cometh on apace; alas ye Summer's wages!

The roads are getting better and coal hauling is brisk again.

Circus Tuesday at Santa Fe—Wednesday at Albuquerque.

More rain again this week. The fall grazing should be getting good.

James Lucas will soon have his anthracite coal breaker in operation.

Geo. W. North is to begin repairing the bridge across the Gallisteo, Monday.

Fine Colorado potatoes received in car load lots at Ames & Gould's. Prices low.

Anyone who would kick at this week's RUSTLER would kick at being hung.

Foreman Hale is putting the track and yards on this section in good shape.

About a thousand dollars worth of coal a day, is now being shipped from Cerrillos.

Wednesday night of next week will be regular meeting night for our board of town trustees.

It is currently reported that Mr. Catron has sold his interests in the Cerrillos coal fields to Elkins and Kern.

T. B. Everett is running the Wiswell mill in good shape at Dolores. Sam Baldwin is supplying the ore.

The officers of the Atchison and Topeka road are daily expected over this division on a tour of inspection.

One of Frenchy's mares choked to death last night in the stable, becoming in some manner entangled in the halter.

The dog killers have raised the price of ammunition as well as decreased the number of dogs considerably this week.

W. H. Laird has a splendid mine of gas coal near Waldo siding, for which he has orders for 30 cars per month from El Paso alone.

Mr. Raunheim is expected back from the east in about two weeks, when the new company at San Pedro will get solidly to work.

The county commissioners have been asked for a small appropriation to be expended repairing the Cerrillos and San Pedro stage road.

We are now receiving a new line of car-hot Heating Stoves. New Designs. Call and see them and get prices. CERRILLOS SUPPLY CO.

The A. T. & S. F., will give the following excursion rate to Forestpaugh shows: Round trip to Santa Fe, \$1.75. To Albuquerque, round trip, \$2.50.

This office has money enough due it to pay its little debts, but that don't pay them. Come up and pay us and we'll pay the other fellow; then all can rejoice.

Chas. O. Hold, of the La Junta and Albuquerque division, was along the line this week looking to the condition of depot buildings, stoves, etc., for winter use, making whatever repairs were needed.

The river bridge should be repaired and put in good shape at once. A great deal depends upon this, not only to Cerrillos and the south county camps, but to the entire county.

Just as the RUSTLER goes to press it has learned that the population of Cerrillos is increased by one, a ten-pound boy having arrived at the home of Mr. and Mrs. S. H. Arnold. Viva, Signor Steve! Viva, Cerrillos!

It begins to look as though the M. E. Church South, of Cerrillos, was without a pastor. No one yet seems able to hear anything of the Rev. Jennings, appointed to this charge, although nearly two months have passed since conference made the appointment.

Did you ever stop to think—if you have a relative or friend at a distance, and who may be acquainted here—how, better than a letter a copy of the RUSTLER with its packed columns of local news and personal gossip, would be to them each week? If you haven't, think of it and subscribe for them.

R. B. Thomas, of Lamy, is special agent for the Equitable Life, and is doing good work there in that unexcelled way of protecting the families of his fellow man. Life insurance is not only a good investment for the future, but a present protection that enables one to sleep without constantly dreaming of death and the wife and babies gone to the poor-house.

Cerrillos is incorporated, but her blank licenses were printed in Springer, an unincorporated village 150 miles north of here. The RUSTLER office, fully equipped to do such work, was not given an opportunity or approached on the matter. Of course, if there is a preference to support Springer institutions instead of Cerrillos, the RUSTLER will try to put up with the inevitable.

Reber and wife, once familiarly known here as "Mr. and Mrs. Soda Pop," have become the subjects of a newspaper sensation at Albuquerque by reporting their bed twice shot at in the night. One of the rifle balls passed through the head-board of the bed upon which they were supposed to be sleeping, but weren't, they having taken up a fortified position on the floor for that night. There must be a crazy gunner down that way.

It seems that the school teacher mentioned last week as here from San Pedro, had been discharged by the school board there, an action that, if reports are true, the promptness of which reflects much credit on the said board. She is said to have used almost every subterfuge while here to procure liquid consolation, and that such material should by any mistake have been put in one of our school rooms for even so short a time, is a matter of regret.

A car load of fine potatoes just received at Uptegrove's.

MARRIED.—At the residence of Mr. and Mrs. Harry Scranton, in Cerrillos, N. M., Saturday evening September 20th 1891, by Judge A. L. Kendall, Mr. Earl A. Turner and Miss Ailie Jones, both of Cerrillos.

The wedding was a very quiet one, yet a number of the intimate friends of the bride and groom were sufficiently informed to get around a few handsome and valuable presents—evidences of their regard. Earl is one of the best boys of all our camps, and the bride is a quiet, deserving little lady who we hope will always make life a pleasure for him. The married couple will go to house-keeping in A. Young's dwelling.

Next week's issue of the RUSTLER will be omitted and the important local happenings, if there are any, will be announced by a special bulletin mailed to subscribers. We make this omission to prepare for the special edition the following week and to make the arrangements necessary to the promised enlarging of the paper, the form of which will be changed from a five-column to a six-column quarto, adding one column to the page, or eight columns in all to the present size of the paper. This change is made to suit the convenience of the office and not to accommodate increased business or that the situation will justify it. The patrons of the paper will gain by the change.

Electricity is again coming to the front in a startling invention. This is by a California man, Prof. A. L. Kimball, who claims to have perfected a machine which will do away with the prospector's work. With it he claims to be able to locate the exact position of precious ore bodies, and determine the depth and width of a vein. Practical tests are said to have been made in which Prof. Kimball readily traced all the veins in a mine, and turned the operators from working on a feeder to the main body. The Prof. and his management are now astonishing the mining sections of Colorado with their work. The invention is based on the well known affinity of electricity for minerals of all kinds, and is described as a battery and magnetic coil connected with a needle. With this instrument in his hand and his eye on the needle, the professor passes along over the ground to be tested.

A citizen yesterday asked the editor of this paper: "What goes with the money?" Looking at the briskness of work, at the busy teams and teamsters, at the long trains of coal cars loading for market; then at the pay-roll of the Cash Entry, of the workings at Dolores, the number of dollars that come in from other directions, and one may very reasonably ask: "What goes with the money?" Apparently there is enough produced here now to give every shop, store and hotel a cash business of one to two thousand dollars a month, yet the complaint of hard times is rife and people generally behind with their current bills. And, "what goes with the money?" In what manner is it sunk out of sight? retired from circulation? hidden away? These are questions the solution of which very closely concerns the prosperity of our business men and town. Let them ponder this little problem and see that it is solved. "Where does the money go?"

The RUSTLER is proud of its subscription list, as it has good reason to be. We question if there is in all New Mexico another weekly newspaper that has as subscribers so many leading citizens, business and professional men of the Territory, or so nice a sprinkling of eastern capitalists.

Personal Rustlings.

Dick Mathews has purchased a nice team of ponies.

Mrs. Nesbitt contemplates moving to Albuquerque.

Mrs. R. Green is steadily recovering from her severe illness.

Miss Maud McCormac will visit Las Vegas friends next week.

John Hulscutter is doing the honors at Kelley & Miller's bar.

E. M. Cunningham visited Albuquerque the first of the week.

County Commissioner Mayo returned to his home at Golden, yesterday.

Randolph Kelley and G. W. North were visitors to Santa Fe yesterday.

Mr. E. N. Roser, of Santa Fe, came down on business the first of the week.

Captain McMahon came in with Mr. Conger from San Pedro, Tuesday evening.

Miss Lucy Wadley has gone to San Pedro, to remain with her sister who is sick.

Mrs. C. Doyle returned from her visit to friends and relatives in Nebraska, yesterday.

J. W. Schofield, of the Equitable Life agency, Santa Fe, passed down the road Sunday night to Albuquerque.

Toney Neis and L. G. Jones, two aldermanic-appearing citizens of Cerrillos, were in Santa Fe Monday on business.

Mrs. Katie North expects to depart next week for her old home in Kansas, where she and her family will reside.

Mr. and Mrs. J. E. Graham will move back to Cerrillos from San Pedro, soon, on account of Mrs. Graham's health.

Juan B. Nieto came in from Dolores Wednesday and subscribed for the RUSTLER. A good thing for others to do.

E. B. Ames, of Ames & Gould, lumber and feed dealers of this place, made a business trip to Las Vegas, Wednesday.

Manager J. T. McLaughlin, of the Santa Fe Copper Co., San Pedro, drove over Saturday evening on business, returning Sunday.

Mr. E. Huhn, of the Cash Entry, accompanied Mrs. Huhn on her trip to the Pacific coast. He is expected to return by the 10th.

John Gray is now duly installed as marshal of the city of Santa Fe. That he will make an efficient and popular officer, goes without saying.

Charley Dudrow, Santa Fe's coal and lumber dealer, is one of the most genial of that city's business men—more than that, his integrity is unquestioned.

R. Y. Anderson, of the Lincoln-Lucky, came in from San Pedro, yesterday. He reports work going on nicely on the Middleton shaft, which he expects to reach the ore body by Nov. 1st.

Col. R. W. Webb returned from the east the latter part of last week, and he and Mrs. Webb have quarters at St. Vincent sanitarium. We regret to state that Mrs. Webb is in quite delicate health.

Mrs. C. W. Uptegrove will visit her daughters, Mrs. Waring, at Las Vegas, and Mrs. Jones, at Springer, for the next two weeks, then go to San Francisco, California, to visit her other married daughter, Mrs. Stecker.

Prof. Griggs opened his branch of the public school Monday with a good attendance and generally favorable auspices. Mr. Griggs appears to be a good teacher, handling his school nicely, so far, in every particular.

Subscriptions to the RUSTLER are cash in advance.

San Pedro Rustlings.

Col. J. P. O'Brien returned on Monday last from Santa Fe.

Mrs. J. M. Lemon, formerly of Cerrillos, took charge of the mine hotel October 1st.

Prof. F. T. de Stwolinski, of the Ft. Scott Foundry and Machine Works, called at the Copper Co.'s, office the first of this week, returning to Cerrillos on Wednesday.

Mrs. West, wife of Henry West, who moved from Cerrillos to San Pedro last winter, died on Monday of this week. The husband has the sympathy of all our people in his loss.

Judging from the number of commercial tourists, this burg must be picking up. This week we were visited by representatives of Gross, Blackwell & Co., Grunsfeld & Co., Mandell Bros., and Vacuum Oil Co.

S. P. Conger, of the St. Lazarus company, came in Wednesday and left the day following for the east, where he hopes to place one of the best gold properties in the south part of the county, for active work. Reliable miners estimate that this property will supply a two hundred ton per day mill, with ore in sight, for a hundred years, without being exhausted. The ore is low grade and shows from the surface. Mr. Conger is working hard to get in operation the biggest gold plant ever at work in this part of New Mexico, and all hope he will succeed.

Monday's Albuquerque Citizen has the following personal mention: "Hon. T. B. Catron, the brainy republican lawyer and politician of Santa Fe, who has recently returned from the east and while in St. Louis said some nice things about New Mexico in an interview published in the Globe-Democrat, came down from Santa Fe last night and is registered at the Armijo. He is here to consult with some of our attorneys about certain legal matters."

Sandy Johnson, guard at the penitentiary, is down from Santa Fe. He says he has just learned of the uncomplimentary manner the Beacon spoke of him after his last visit here, and though recognizing the insignificant source, desires to call the attention of fair-minded citizens to the fact that, as an employee of the pen. he was sent here to watch the trains and other ingress to the town, and on this as on all other occasions, he obeyed orders and tried to do his duty. He regards the statement as unjust and uncalled for.

E. T. Jeffrey, once general manager of the Illinois Central, has been made president and general manager of the D. & R. G., and entered upon his duties as such. It is understood that his election is due to the influence of president Allen Manvel, of the Atchison, Topeka & Santa Fe, with which road the D. & R. G., has made a close traffic alliance. Under the new agreement the Santa Fe virtually gains control of the Rio Grande, one of the stipulations of agreement being that no president or general manager shall be chosen for the D. & R. G., without having received the approval of the Santa Fe.

We are receiving daily, new goods for our different stocks, and it will be of interest to buyers to call and see us, as our selections have been made from the Manufacturers and Jobbers, East. We can give you the latest improved styles and satisfy you as to prices.
CERRILLOS SUPPLY CO.
